

## The Brow C.P. School

### **Admission Policy**

There is a legal duty on all schools to offer equal access to education regardless of disability. The school will consult with parents and relevant professionals to ensure that any additional needs, in particular any actions relating to the health and safety of the child concerned, of other children and of school staff, are addressed and supported.

The school complies with and is fully supportive of the SEN and Disability Act 2001, which describes as unacceptable, policy or practice devised to exclude children from an educational establishment for reasons of disability. This will include the full range of learning difficulties, developmental delay, as well as medical, physical or sensory difficulties. Please see attached H.B.C. admissions information.
